

Events and Alarms API (v0.0.3)

Alarm

Alarm List API

Get Alarms

Returns the set of alarms. Added the support for MSP tenant. For MSP tenant need to pass tenant ids and sort order.

REQUEST BODY SCHEMA: application/json

required

fields	Array of strings unique
sortField	string
sortOrder	string
page	integer <int32>
pageSize	integer <int32>
filters >	object
mspEcTenants	Array of strings

Responses

> **200** successful operation

> **400** Invalid payload supplied

> **500** Internal Server Error

— **501** not implemented

POST /alarms/query
